DETAILED ACTION

1. The Applicants' amendment filed on January 12, 2006 was received. Claims 1-12 and 19-24 are deleted. Claims 13 and 15-18 are amended. Now, Claims 13-18 and 25-29 are pending.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 13-18 and 25-26, drawn to a coating composition and a method of preparing a cured coating, classified in class 427, subclass 515.
- II. Claims 27-29, drawn to a method of preparing a cured coating, classified in class 427, subclass 384+.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions of Group I and Group II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, Group I is directed to a method of

Art Unit: 1712

preparing a cured coating composition comprising a crosslinker which is a reaction product of an amino resin, an olefinically unsaturated compound and a silicon-containing compound, while Group II is method of preparing a cured coating containing a component that does not need to be a crosslinker (e.g., the component can be UV and thermally cured by itself without interacting with the rest of components, and the rest of the components having at least one component having more than two functionalities and can be cured by themselves) as long as this component is **distributed unevenly** in the composition.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if

Art Unit: 1712

one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kuo-Liang Peng whose telephone number is (571) 272-1091. The examiner can normally be reached on Monday-Friday from 8:30 AM to 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski, can be reached on (571) 272-1302. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
